The following is an examiner's statement of reasons for allowance: The prior art taken either singularly or in a combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims 1-3, 11, 14 – 16, 24 and 27, for example, which include, a system for displaying an image the system having a pixel array adapted to produce an image portion oriented at one angle and another pixel array is adapted to produce another image portion oriented at second angle and each angles includes a non-orthogonal angle and a second angle different from the first angle and combined both image portions to display image.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
